

Regarding LPFM stations taking priority over current FM translator service, I currently listen to Airl radio over an FM translator service. Airl supports wholesome values and has a positive and encouraging impact on my community and my family. As a parent of pre-teens, most stations on the radio are very inappropriate for my kids to listen to. They are filled with swear words and sexual innuendos that I do not want my children listening to. Airl allows people like myself, who want to listen to the radio without all the trash currently aired, to enjoy spiritually uplifting times with our children. Replacing stations such as Airl with LPFM stations would remove our abilities to provide a wholesome, positive and encouraging environment to our children and other in the community.
